

### Principal's Message

Mr. Richard Hillebrand

The EY and ELC Sports Days this past week were the first of our series of Sports Days for this academic year. The work on the sports ground has impacted the planning for these - and caused plans to be revisited a number of times - leading the events being later in the calendar than normal. My thanks to all in the PE Department for making preparations at a time of uncertainty. The eventual reward will be outdoor facilities which match the aspirations of our students and their sports teachers. Once the upgrading of the facilities is completed over the next few weeks, we can make our plans for the next academic year and look forward to welcoming parents to see their children participating in all that the school has to offer.

### Student Achievements

Aryeh Thomas Mathews and Dhyhan Madathil of grade 11 DP have reached the Quarter Finals of 'Re:solved'- Branksome Hall Munk Debates 2024. Re:Solved is designed to fuel interest and participation in global competitive speaking and debate and saw over 120 students across the world participate. The Final Debate Tournament will be held in Toronto on April 27, 2024, and the four finalists will be flown to Toronto to compete, with all expenses covered.

Aryeh

Dhyhan

Aryeh and Dyhan have reached the final eight debaters and we wish them luck for the next round.

### Staff Achievements

Mr. Abilash George, Ms. Aiswarya Avinash, Dr. Aswathy, Ms. Merly Mervin and Ms Meryl Benny have successfully completed training for Cambridge International AS & A Level in their subjects, with a focus on assessment.

## Culmination of PYP Clubs

Wednesday 13th March marked the culmination of the PYP clubs for this academic year. The success of these clubs was the responsibility of all the teachers who were the club incharges. A big shout out to each of them! Thank you Ms Akhila for coordinating the PYP clubs from the beginning of the academic year to the last day, and Ms Newshee and Ms Vineetha for planning and implementing the PYP Club Day. Students of each club showcased their skill and parents joined us to experience and celebrate the journey.

In the Reading Club, children listened to and read out loud many books and then went on to write and illustrate their own stories. In addition, the Grade 2 students did book reviews of their favourite books. Through the course of the reading club, the students progressed from being story readers to storytellers, exploring their sense of imagination and creativity.

The Dance Club had put on a mesmerising performance of the folk dance style, Garba. This event not only showcased the talents of the young dancers but also created a magical atmosphere as parents actively participated and learned from their children. Their colourful costumes and vibrant energy illuminated the venue as they performed Garba steps with grace. Parents and children danced together, creating unforgettable memories and fostering a sense of togetherness within the school.

The Visual Media Club exhibition and photography session was enthusiastically attended by parents. The students showcased their work and guided parents on various photographic techniques.

The Chess Club had competitions between students, displays of skills at different levels and matches between parents and students.

For the Art and Craft Club, students took initiative to choose and make a craft they had learned in this year for their family. Key Attributes like proactiveness, independence and confidence were visible throughout, parents being happy with students and watching them express their creativity.

(...Continued)

In the Nature Club, parents and students formed small groups with one parent in each group. Together they collected natural materials and stuck it onto a chart.

In the STEM and Robotics Club, students eagerly interacted with Avishkar, Science Discovery kit, and Wedo models, showcasing competence across both proficient and beginner levels. Through project presentations, students initially learnt construction techniques before being tasked with creating their own models. Their projects exemplified inventive applications of STEM principles, emphasising their confidence in making connections between theoretical concepts and practical real-world scenarios.

Fun with science was the message shared by the students of the Science Club. The working of rockets, the power of air pressure, the secret science behind oobleck, a balloon car, volcanic eruptions and blooming flowers were amongst the activities students presented with clear scientific explanations.

The Drama Club celebrated the Club Day with all fun and gusto where parents and students were formed into groups and made to enact different situations and emotions. It was a very enriching and entertaining session that left everyone in a peal of laughter.

# TRINS ON TUESDAY

(Continued...)

The budding Master chefs showcased their culinary skills. There were a variety of delicacies on display, like lemon mint juice, French fries, pancakes topped with strawberries and chocolate, lemon mousse, chocolate choco melting moments and egg toast to tingle your taste buds.

### Grade 2A Talent Assembly

The students of Grade 2A showcased their talents at the Talent Assembly held on 11th March. The event featured diverse performances, including poetry recitation, singing, dancing, and instrumental displays on the ukulele and keyboard. The students exhibited exuberance throughout their presentations. Thanks to the homeroom teachers, Ms. Miranda and Ms. Chinmayambika for their guidance as well as the support from the Assembly team.

### Media Awareness for Grade 3

As part of the present theme, how we express ourselves, Grade 3 is inquiring into the topic Media. Dr. Ashwin David Joy, our inhouse graphic designer, along with Ms Pooja Gopal, inhouse intern for visual media, conducted a session on broadcast and social media giving insights on their uses, source and the impact of their influences on people. The session was very interactive and engaging.

### Value Lessons

Middle School Value lessons this week focussed on assisting students in preparing for the upcoming Summative Assessment. We offered them the opportunity to discuss the best study practices. Thanks to Ms. Anuradha, Ms. Bindu, Ms. Aishwarya, Ms. Renjini who contributed to the lesson and supported students with techniques for studying various topics, including the use of summary notes, flashcards, and other supporting tools for revisions. The students were encouraged to prepare a study plan that aligns with their targets, benefiting their SA preparation.

## Interactive Storytelling Session for KG 2

A very special thanks to Ms. Sapnu George, mother of Noah John of KG2 for a wonderful interactive story session. The students not only enjoyed the narration but also loved every part of the story, Angry Akku by Vinayak Varma.

## EY Sports Meet

The EY sports day unfolded on Friday, 15th March, featuring enthusiastic participation from the Main School, Sasthamangalam, and Technopark campuses. Students demonstrated sportsmanship, notably excelling in the obstacle race. Parents enthusiastically joined in, partaking in games alongside their children. A heartfelt thank you goes to the PE team for their meticulous organisation, and a resounding applause to all the teachers for their collective contributions to the event's success.

TRINS ELC TECHNOPARK  
TRINS ELC Sasthamangalam

**ELC Annual Sports Day**

The Early Learning Centre (ELC) of TRINS embarked on an exhilarating journey as it geared up for the Annual Sports Day. From the bustling corridors of the Sasthamangalam and Technopark campuses to the TRINS sports ground, every step resonated with enthusiasm and determination. On 12th March, the young contenders descended upon the sports ground for a final run-through. Amidst cheers and encouragement from their teachers and PE facilitators, the tiny tots of ELC showcased not only their athletic prowess but also their resilience and sportsmanship.

As the sun dawned on Friday, the 15th of March, the Annual ELC Sports Day unfolded as a testament to the collective effort and dedication of the entire TRINS community. The event served as a platform for the young learners to exhibit their talents, instilling a sense of pride and accomplishment among all involved.

Round Square

**A Reflection by Sarah Biji Tharakan, RS Student Representative**

As the first chapter of the Round Square Society comes to a close , I can't help but be overwhelmed and reminisce over the year we had. It wouldn't have been possible without each and every one of my teammates and it goes to show how much results collective efforts can create. I believe that Round Square helped me find everything I looked for, not just as a student, but also as a person. I was able to put my creativity and dedication to help people through a leadership position. I can confidently say I enjoyed every shred of the work put into this, from the late nights, running behind people to get permissions, our monthly meetings to witnessing projects from its ideation to its fruition. Balancing such an initiative alongside my academics wasn't easy to do, but it was one of the easiest decisions I have ever had to make as it was all truly worth it. As a wise person once told me "If it's done with genuine intentions and a good heart, it will always come out more beautiful than expected" - or something along those lines, and this year has been nothing but evidence of just that - how a seed of pure thought can bloom into beautiful actions. I am so happy to be able to say I was a part of this - an experience for a lifetime. I am glad that through our collective actions, we have been able to give back to the community . I am excited to see how Round Square continues to thrive and be an integral part of the TRINS community.
